## Background

The following report considers the cost of providing Medicaid to members who work at an employer which employed 50 or more employees for State Fiscal Year (SFY) 2018. This report was created to meet the requirements set forth in Senate Bill 366. Senate Bill 366 requires "... the Department of Health and Human Services to prepare an annual report which lists all employers in this State which have 50 or more employees and the number of full-time employees of such an employer who are enrolled in Medicaid."

## Technical Notes

Throughout this report employment was defined using the wage threshold associated with earning minimum wage in Nevada. More specifically, the group of Medicaid members presented below represents employees who earned \$3,480.00 or more in gross wage earnings for a 12-week consecutive period (one quarter) as reported to the Department of Employment, Training, and Rehabilitation. This gross quarterly wage represents the minimum wage of \$7.25 an hour paid to employees who work for employers who offer health coverage benefits and who worked 40 hours a week.

Determining whether or not an employer offered health coverage benefits was done by matching the employer's Employer Identification Number (EIN) against the Department of Labor's Employee Benefits Security Administration's database of Form 5500's filed by the employer. Form 5500 identifies the different welfare, health, and pension plans offered by an employer. A Schedule 4a filed as part of the Form 5500 indicates that the employer offers a health benefits plan or an employee welfare plan. However, not all employers need to file a Form 5500 and may offer health benefits to their employees. The Division of Insurance does not currently track which employers offer health insurance unless there is a consumer complaint.

Determining if a company had employees on Medicaid was done by matching Medicaid members to records in the Department of Employment, Training, and Rehabilitation (DETR). This match provided quarterly wage information and the identification number of the employer that the Medicaid member worked for during each quarter of SFY 2018. A Medicaid member may have had more than one employer during the course of the year. DETR also supplied a file with the identification number, company name, and address for employers in Nevada with 50 or more employees. The wage file and employer file were then combined to identify which Medicaid members were employed by companies with 50 or more employees.

To determine dependents of Medicaid members who work for a company with 50 or more employees, the list of Medicaid members who work for companies with 50 or more employees was matched against Medicaid enrollment. A dependent was defined as the person who is the head of household of an employee, the spouse of an employee, a child of an employee or the head of household, or an unborn child of an employee or head of household.

<sup>1</sup> The Bureau of Labor Statistics, Occupational Employment Statistics, May 2017 State Occupational Employment and Wage Estimates – Nevada, [https://www.bls.gov/oes/current/oes\\_nv.htm#00-0000](https://www.bls.gov/oes/current/oes_nv.htm#00-0000)

## Results

There were 105,895 Medicaid members employed by employers with 50 or more employees and an additional 123,164 dependents. The total cost of providing healthcare to these employees was approximately \$375,098,269. The total cost for providing healthcare to the dependents of these employees was approximately \$263,465,532. Combining these costs, the overall cost of healthcare to these Medicaid members was \$638,563,801.

The average company with 50 or more total employees and with employees on Medicaid had 26 employees on Medicaid and 30 dependents associated with these employees on Medicaid, with the average cost to Nevada Medicaid of \$157,282.

The table below displays the companies with 50 or more employees who made up the top ten employers with employees and dependents on Medicaid when ranked by the number of employees and dependents on Nevada Medicaid.

### Top 10 Employers by Number of Employees and Dependents on Medicaid

### Employee Demographics

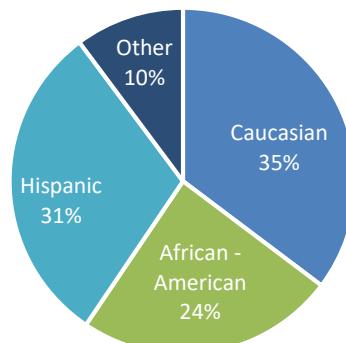

The majority of these Medicaid members lived in Clark County (77%), with 14% in Washoe County and 9% in the remainder of the state.

Thirty-five percent (35%) were Caucasian, 31% were Hispanic, 24% were African American, and 10% were of another race/ethnicity.

Region

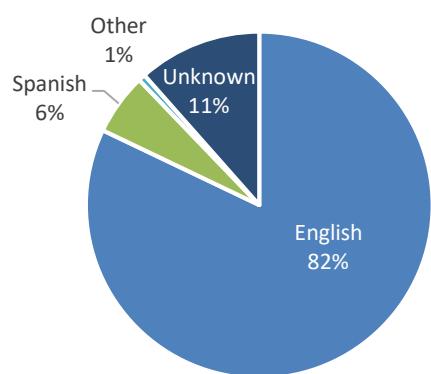

Race/Ethnicity

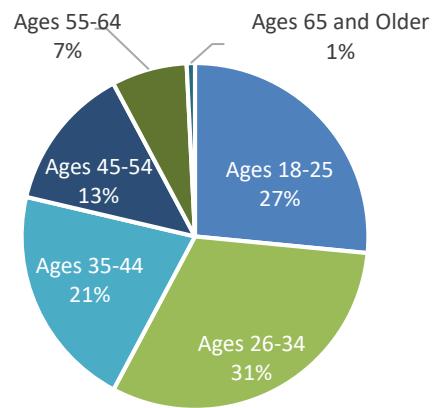

The majority of these Medicaid members spoke English as a primary language (82%), with 5% listing Spanish as their language spoken. One percent (1%) listed another language and 11% had an unknown language.

Twenty-seven percent (27%) of these Medicaid members were 18-25 years old, 31% were 26-34 years old, 21% were 35-44 years old, 13% were 45-54 years old, 7% were 55-64 years old, and 1% were 65 years old and older.

**Language Spoken**

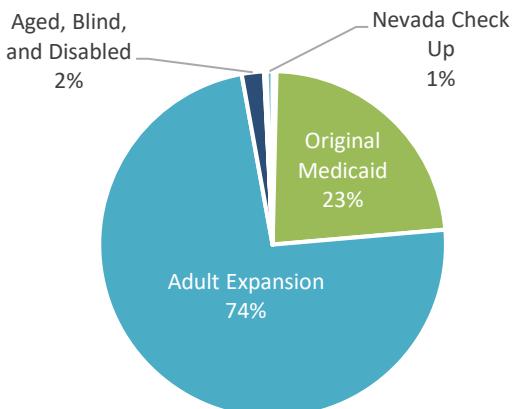

**Age**

The majority of these Medicaid members were eligible for Medicaid under the Adult Expansion budget category (74%). Twenty-three percent (23%) were eligible under Original Medicaid, 2% were eligible under the Aged, Blind, and Disabled category, and 1% were eligible under Nevada Check-up.

**Budget Category\***

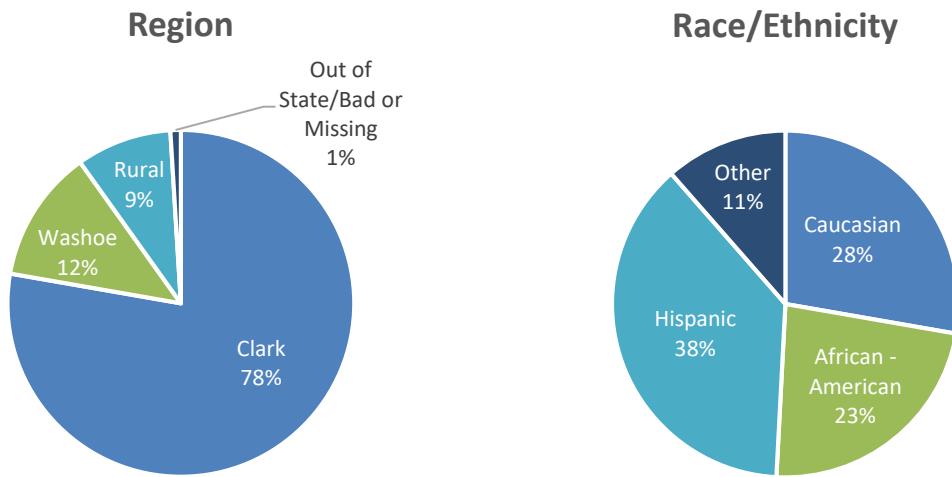

\*Budget Categories that are not displayed here made up less than 1% of this caseload. These include CHIP to Medicaid, Waiver, County Match, Child Welfare, and Child Welfare – State Only.

## Dependent Demographics

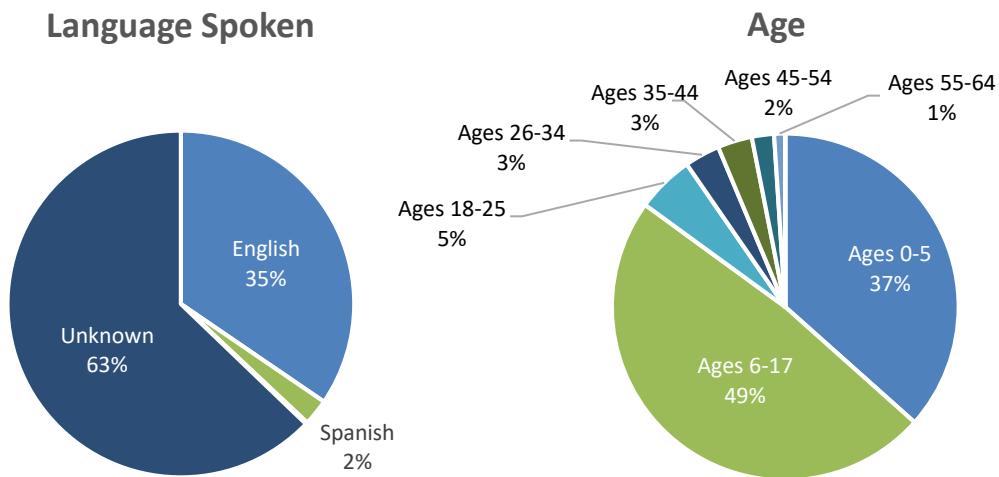

The majority of the dependents of these Medicaid members also lived in Clark County (78%), with 12% in Washoe County, 9% in the remainder of the state, and 1% with out of state or bad/missing address information.

Twenty-eight percent (28%) were Caucasian, 38% were Hispanic, 23% were African American, and 11% were of another race/ethnicity.

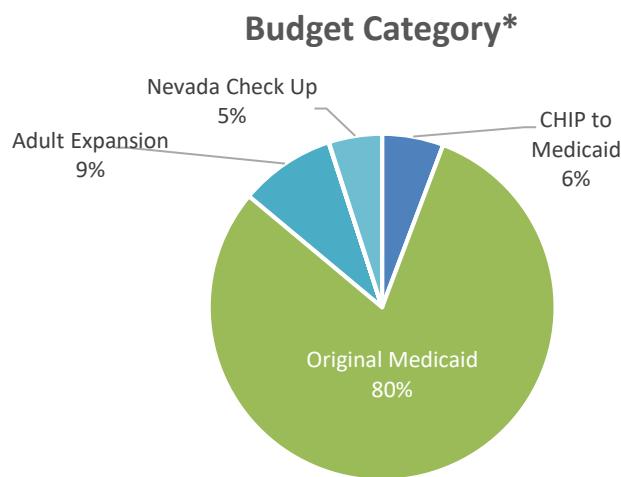

Language information was unknown for the majority of the dependents (63%). Thirty-five percent (35%) spoke English as a primary language, and 2% listed Spanish as their language spoken.

Thirty-seven percent (37%) of the dependents were 0-5 years old, 49% were 6-17 years old, and 14% were 18 years old or older. There were no dependents aged 65 or older.

The majority of the dependents were eligible for Medicaid under the Original Medicaid budget category (80%). An additional 9% were eligible under Adult Expansion, 6% were eligible under CHIP to Medicaid, and 5% were eligible under Nevada Check-up.

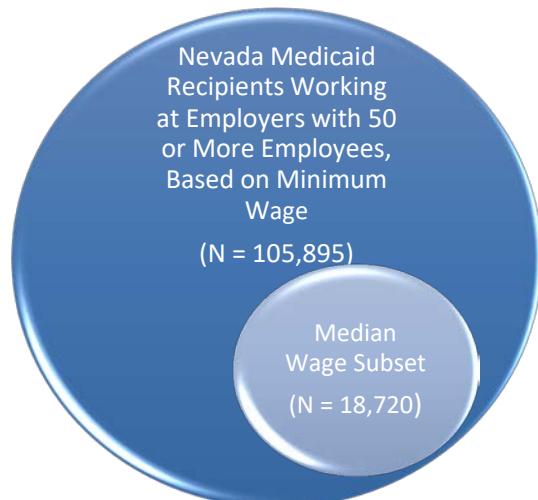

\*Budget Categories that are not displayed here made up less than 1% of this caseload. These include Aged, Blind, and Disabled, Waiver, County Match, Child Welfare, and Child Welfare – State Only.

### Median Wage Subset

It may also be of interest to consider the subset of these employees who earned enough in wages to meet the quarterly wage threshold associated with the median Nevada wage. More specifically, the subset of these Medicaid members who earned \$8,059.20 or more in gross earnings in a quarter. This gross quarterly wage represents the median wage in Nevada in 2016, of \$16.79 an hour.

Out of the 105,895 Medicaid members employed by employers with 50 or more employees who earned \$3,480.00 or more, 18,720 Medicaid members (18%) earned \$8,059.20 or more in gross earnings in a quarter.

There were also 32,964 dependents associated with the Medicaid members in this subset. The demographics associated with this subset did not differ significantly from the demographics of the larger pool of Medicaid members and dependents considered in this report.
