2 Gallon Home & Garden Sprayer User Guide 95690 Save for Safety, Assembly & Maintenance Keep this manual safe with the receipt and assembly diagram near the purchase date (or serial number if available). Read before use to avoid serious injury. Symbols: - A warning triangle means danger: death or severe injury. - A yellow triangle means caution: minor or moderate injury. - A notice flag addresses non-injury related warnings. Important Safety Info Read all safety guidelines. Failure to follow them may result in serious injury. Work Area Safety Keep the area clean, well-lit, and with proper drainage. Keep bystanders away while operating the Sprayer. Personal Safety Follow chemical guidelines, stay alert, and use common sense. Do not operate while tired or under influence of substances. Dress properly to avoid accidents. Sprayer Usage Use only for water-based products like fertilizers, herbicides, pesticides, and sealers. Avoid using combustible or corrosive chemicals. Release pressure in the Tank before loosening parts. Do not point the Sprayer at people or animals. Ensure the liquid is clean and not dirty or sandy. This product is not a toy, so do not allow children to play with it. Remember to keep this manual safe for future reference. • Before using, inspect for damage or loose parts and only use as intended. • Regularly check for damaged or missing parts; if found, do not use until repaired. • Always follow safety guidelines and instructions on the product labels and nameplates. • Keep the product clean and well-maintained to ensure proper function and control. • Store tools out of reach of children and untrained users to prevent accidents. • Have your Sprayer serviced by a qualified repair person using only identical replacement parts to maintain its safety. Before using the Sprayer, make sure it's in good condition by checking for loose hardware, misaligned moving parts, or any other damage that might affect its safe operation. To stop continuous spraying, press down and pull back on the Trigger until it locks. If you need to refill the Tank, remove the Handle Assembly, add liquid, and replace it. Pump the Handle until proper pressure is achieved, then resume spraying. When finished, depressurize the Tank, dispose of any remaining liquid, and clean the Sprayer according to the provided Maintenance Instructions. Regularly inspect the Sprayer for signs of wear and tear, lubricate its moving parts with petroleum jelly, and store it in a safe location away from children and sunlight. If you encounter issues with the Sprayer, such as poor spray patterns or failure to spray altogether, refer to the Troubleshooting guide for possible causes and solutions. Always follow safety guidelines and regulations when using the Sprayer, including proper handling of chemicals and adhering to MSDS instructions and EPA regulations. UPC code required when ordering parts. Specify UPC numbers for accurate identification. Parts List and Diagram: 1. Nozzle: 1 2. Separate Plate: 1 3. O-Ring (14 x 2): 1 4. Bend: 1 5. Wand Nut: 2 6.
